

Jay Li

Software Developer

Profile

Dedicated and reliable programmer with experiences in Full Stack Web Development, App Development, Game Development and Database Management.

Employment History

Founder at Raikoh Apps

October 2019 — Present

- Raikoh Apps is an app, game and website development project.
- I use it as a creative playground to release small projects to the world.
- It allows me to learn about the indie app and game dev industries.
- One mobile app has been released and more to come!

Technical Analyst at Wood PLC,

February 2018 — Present

- Worked within asset management and inspection teams to deliver inspection and turnaround maintenance scopes.
- Primarily worked on database management and data manipulation.
- Developed scripts and programs for the team to reduce complexity and time of tasks.
- I'm grateful for the time I spent with different clients alongside brilliant engineers; whose work gave me a glimpse into the challenges and rewards of an engineer's life.

Founder at UltraVe

September 2018 — Present

- UltraVe is a social media community and online clothing company that promotes healthy eating and a cruelty-free lifestyle.
- I have learned the importance of online marketing and online presence that comes from search engine optimization (SEO) and ongoing community building.
- This small project has taught me how to work on tasks independently: site creation, product sponsoring, graphic designs, customer support etc.
- As a way to give back, a portion of the proceeds go to animal rescue and shelters.

Private Tutor

December 2015 — September 2018

- Graduated school with a body of knowledge that I wanted to give back to the local community.
- Focused on 12th grade Mathematics, Physics and Chemistry.
- By the end of the school year, my students achieved grade A from lower grades; 2 of which earned a Dux Award (Top ranked student of their year group).
- 1000+ hours of teaching experience.
